

## C22 HW-16

### How Singing Changes the Length of the Vocal Cords

1. How are the vocal cords attached (anterior vs posterior)?
2. How does the length of the vocal cords change from birth to the adult woman and adult man?
3. How does the difference in adult vocal cord length affect the pitch of the voice?
4. When are the vocal cords “open”?
5. What happens to the vocal cords when you sing a high note?
