

C22 HW5

Respiratory Volumes and Spirometry

1. What are the four lung volumes?
2. What is tidal volume?
3. What is the inspiratory reserve volume?
4. What is the expiratory reserve volume?
5. What is the residual volume?
6. When may you experience an inspiratory capacity?
7. What three volumes make up the vital capacity?
8. What volume can we not measure directly with a spirometer?
