

C22 HW-17

Steven Tyler's Vocal Cords

1. How often do Steven's vocal cords slap together per second to make these high pitch sounds?
2. What is a vocal bleed? Who may experience this type of injury?
3. How may you correct vocal bleed?
4. When do the vocal cords lose and vibrate more slowly?
5. Singing is important, but what is the more important function of our respiratory system?
6. What other function is associated with our respiratory system?
