

Q: How can the Academic Success Center help you succeed in your BIOLOGY courses?

A: The Academic Success Center offers a variety of resources including the following:

Tutors

Do you need help understanding concepts? Want to be quizzed to see if you understand a topic? Our tutors can help you with this no matter what campus your course is at. Walk-ins are welcome and we have online tutoring for some subjects too. To check to see when tutors are available for your course, check our scheduling website at <https://web.penjiapp.com/>.

Lab Practice

The Academic Success Centers at both campuses have a majority of the models and or charts found in your classroom that you can use during hours of operation.

Lab practice practical exams are set up for each lab practical about a week or so before your actual exam.

Lecture Study Materials

For some courses we have extra study worksheets to take home and supplementary references to use while at the Academic Success Center. To see what we have available, stop by the Academic Success Center today. If you would like a worksheet / study guide made for a specific topic, let us know.

Academic Success Center's Canvas Page

Don't have time / the ability to visit either Academic Success Center? No worries, we have an online canvas page. We have all of the extra study worksheets that are available online. There are also anatomy lab Quizlets online.

Need help with a different subject? The Academic Success Center Canvas page also has pages for other subjects like math and chemistry to help you to succeed in other courses.
